

SYSTEXX PURE - WALL AND CEILING COVERINGS FEATURING PURIST TEXTURES

# IN TUNE WITH SPACE AND TIME

## FOR PERFECTLY SMOOTH WALLS

Immaculate and beautiful: the **SYSTEXX glass fleeces** in particular can be hung without any visible joints. The resulting smooth surface makes an ideal foundation for decorative coatings and stucco techniques. The glass fleece also holds its shape well and can be repainted many times.

And for those who want more technical performance, yet still want smooth walls: **SYSTEXX Pure Silk 060** glass fabric bridges existing cracks and effectively prevents new ones from forming. The result is a virtually smooth wall that is protected against damage from knocks and scrapes.

Minimalistic, virtually smooth design with maximum technical performance
